Gentlemen:

We are submitting for **GE Medical Systems, LLC**, a **WUSB Host Radio**, with an **FCC ID: YYJ-5390144** for a **Class II Permissive Change Certification**. The original ACON P/N ADM3S-100010 UWB antenna is being replaced with an Ethertronics P/N 1003656 UWB antenna. Because this is a replacement part, the Label Exhibit, Operation Description, Block Diagram, Schematics and Users' Manual will not change. The Request for Limited Singular Modular certification will remain the same as well. This Class II Permissive Change is meant to show continued compliance of the module with the replacement antenna for an ultra-wideband device. This unit has been tested and complies to **Part 15, Subpart F**. If there are any questions in regard to this application, please call D.L.S. Electronic Systems, Inc. at (262) 279-0210. Enclosed you will find a copy of our test report with the information and results of tests that is required under Part 15, Subpart F.

Thank you for your assistance in this matter.

Sincerely,

A handwritten signature in cursive script, appearing to read "William M. Stumpf".

William M. Stumpf
